April 2010

Dear City of Miramar Resident:

The City of Miramar is ready to kick off Phase II of the Historic Miramar Infrastructure Improvements Project (HMII Phase II). It is anticipated that construction activities will begin in June 2010.

The primary objective of HMII Phase II is to deliver enhanced sanitary sewer and storm water services to the residents and property owners in the area *bounded by SW 25<sup>th</sup> Street to the South, Pembroke Road to the North, State Road 7 (US 441) to the East and SW 64 Avenue to the West*. The major benefits from this project will allow you to abandon the septic tank and connect to the gravity sanitary sewer system for waste disposal.

In order to provide better customer service during construction and keep you informed, you are cordially invited to attend a community meeting to be held as follows:

Date: April 29, 2010  
Time: 7:00PM - 8:30PM  
Location: Multi Service Complex, Banquet Hall  
6700 Miramar Parkway, Miramar, FL.

Your feedback is important to us. We hope that you will make every effort to attend this very important meeting to meet the project team and obtain more information on upcoming improvements to your neighborhood.

City of Miramar

Hong Guo, Director
